

We currently have a vacancy for:

**MAINTENANCE TECHNICIAN (Kettyle/Retail)
KRMT/09/2020**

ROLE:

You will be working as part of a team in our Kettyle and Retail site and will be responsible for:

- Providing knowledge, experience and support to install, maintain and repair production and ancillary equipment
- Carrying out planned preventative maintenance in accordance with maintenance schedules
- Carrying out reactive maintenance as required
- Identifying and implementing improvements on equipment
- Maintaining appropriate computerised and manual records and liaise with various department personnel / suppliers and customers
- Working on either day, evening or rotating shifts to ensure production requirements are met
- While the role is that of a maintenance technician, it does involve the use of other skills such as mechanical fitting to be able to complete tasks around the production machinery.

REQUIREMENTS:

- A time-served electrical/mechanical engineer with formal qualifications and ideally a minimum of 3 years hands-on maintenance experience, preferably within the food industry.
- PLC variable speed drive and control systems is desirable
- Hands on approach to solving problems and achieving results is a must
- Excellent communication, interpersonal and reporting skills
- Ability to work as part of a team
- Be flexible in terms of operational requirements and willing to travel to other sites as and when required
